CAREER SUMMARY

Professional, and meticulous. Offering the skill to translate business requirements and acceptance criteria into manual test cases and test steps. A self-motivated and result-oriented professional with experience in manual software testing for the Banking, and Insurance industries for 5 years; and hardware testing for the payment processing industry for 2 months.

CORE COMPETENCIES

- JIRA X-Ray
- MongoDB
- LifeAsia
- BrowserStack
- Microsoft Excel, and Microsoft Word
- Manual software testing for web browser, and mobile applications
- Basic desktop web browser, and Android mobile automation testing with IntelliJ IDEA, Java, Selenium with the Selenium documentation's page object model, Cucumber, Appium, ExtentReport, TestNG, ChromeDriver, and AndroidDriver; as well as with Webstorm, Python, webdriver.Chrome(), webdriver.Remote(...), and html report by manually running the Python "test_" function
- UOB and GPAP credit card terminals parameter hardware testing
- Microsoft 365 Copilot documents scan function

PROFESSIONAL EXPERIENCE

PRUDENTIAL

Manual software tester, Jan 2022 to Mar 2025

- Ensure that the applications Agent Portal, Admin Portal, PRUForce@Pulse, and PRUOneExpress for the insurance agents, are working as expected.
- Verified test records using MongoDB and queried insurance agent, client, and policy details via LifeAsia system.
- Reviewed and executed test cases based on JIRA Stories, Requirements, and Epics assigned by QA Lead.
- Created and maintained Microsoft Excel test plans for manual testing activities
- Documented detailed test steps and screenshots in Excel, and uploaded execution evidence via JIRA X-Ray plugin.
- Logged and tracked defects in JIRA, collaborated with developers for resolution, and conducted re-testing of affected steps.
- Prepared knowledge transfer documents in Microsoft Word to share testing steps and screenshots with the QA team.

DBS

Manual software tester, Feb 2021 to Nov 2021

- Ensure that the bank loan applications ARI, SG-IPA, and ILMS for the staff, are working as expected.
- Reviewed and executed test cases based on Functional Specification Documents.
- Created and maintained Microsoft Word test plans for manual testing activities.
- Documented detailed test steps and screenshots in Word, and uploaded test results via JIRA.
- Logged and tracked defects in JIRA, collaborated with developers for resolution, and conducted re-testing of affected steps.

UOB

Manual software tester, Sep 2019 to Sep 2020

- Ensure that the bank applications MWP, eComm, TMRW, R+CSC, and GEB NextGen Project - HK Release for the customers, are working as expected.
- Reviewed and executed test cases based on Functional Specification Documents.
- Created and maintained Microsoft Word test plans for manual testing activities.
- Documented detailed test steps and screenshots in Word, and uploaded test results via JIRA.
- Logged and tracked defects in JIRA, collaborated with developers for resolution, and conducted re-testing of affected steps.

CUBE PAYMENT

Logistics assistant, Oct 2025 to Dec 2025

- Carried out hardware testing for the UOB (A80, A920Pro, DESK5000, MOVE5000, and DX8000); and GPAP (A920) credit card terminal parameters - Cleared the batch before the sale and void sale transactions; and only printed the settlement if required by the job nature, for the next two working days.
- Assisted to unpack newly purchased stock for the warehouse room; and to scan the serial numbers of terminals and terminal charging bases.
- Recycled the technicians' returned terminals only when required, by checking for any remaining non-voided sale transaction balance; turning on the terminals to check for whether text can be printed; physically cleaning the terminals; and uninstalling and redownloading the credit card terminal software for DESK5000, and MOVE5000 only if required.
- Used the smartphone application Microsoft 365 Copilot scan function to take the screenshot images of documents which are to be saved into a PDF file.
- Prepared work order stickers and papers according to the current month's scheduler file for the warehouse room team who tests the credit card terminals.

EDUCATION

National University of Singapore

Bachelor of Computer Engineering, 2019
